

# Accessing AIR Ways Reporting for Schools

AIR Ways provides information on student performance on Benchmark Modules. When users log on to the system they see the dashboard page. The Dashboard provides a summary of all the assessments your students took. More detailed reports with item analysis and a view of actual student work can be accessed from the dashboard page.

Note: The type of performance data that appears in AIR Ways varies by test type. For Benchmark Modules, performance level data will appear.

## AIR Ways Reporting Card

1. On the SAGE portal select your user role.
2. Click the **AIR Ways Reporting** card. The login page appears.
3. Enter your email address and password.
4. Click **Secure Login**. The Dashboard will appear.

## School Dashboard

The Dashboard will display the overall summary of your students' score data including average score and/or performance distribution of all assessments.

The data you see are dependent on your role; for example, a school level user only sees data for their students in the school.

Dashboard Filter by: All Test Reasons

Average Score and Performance Distribution, by Assessment: Demo School 2, 2016-2017 Rows per page: 25

Assessment Name	Test Reason	Student Count	Average Score	Performance Distribution	Date Last Taken
<a href="#">Benchmark Module: Writing Grade 4 Opinion</a>	Unassigned	4	189	100%	09/26/2016
<a href="#">Benchmark Module: Writing Grade 4 Informative</a>	Unassigned	2	135	100%	09/26/2016
<a href="#">Benchmark Module: ELA Grade 4 - Literature B</a>	Unassigned	1	180	100%	09/26/2016

<a href="#">Benchmark Module: ELA Grade 4 - Informational B</a>	Unassigned	1			
<a href="#">Benchmark Module: ELA Grade 4 - Informational A</a>	Unassigned	1			

## Performance by Class

To view how your students performed on a specific assessment, you can click on the name of the assessment. The School Assessment Report displays two tabs: **Performance by Class** and **Performance by Student**.

The **Performance by Class** report provides information about how each class in the school performed on the given assessment. This report can be used to compare how a specific class has performed overall compared to the rest of the classes. In addition to displaying points earned on all items, it also displays the five assessment items with the highest and lowest average scores for the school, which helps you to analyze students' strengths and weaknesses.

Clicking on the roster will show a similar report for the students in the class.

Performance by Class

Average Score, Performance Distribution and Average Points Earned on **Benchmark Module: ELA Grade 5 - Listening A** (Unassigned), by Class and Reporting Category: Demo School 2, 2016-2017 Rows per page: 25

Class	Teacher	Total		
		Student Count	Test Completion Rate	Average Score
Max Points				613
Everyone		5		255
<a href="#">Grade 5 ELA 1</a>	Demo, Teacher A	1	100% (1/1)	180
<a href="#">Grade 5 ELA 2</a>	Demo, Teacher A	1	100% (1/1)	180
<a href="#">Grade 5 ELA 3</a>	Demo, Teacher A	1	100% (1/1)	167
<a href="#">Class 5 ELA 4</a>	Demo, Teacher B	1	100% (1/1)	167
<a href="#">Class 5 ELA 6</a>	Demo, Teacher B	1	100% (1/1)	494

## Performance by Student

The **Performance by Student** report provides information about how each student in the school performed on the given assessment. This report provides score, performance, and/or points earned for the selected assessment of all students. The table displays aggregate data of all students as well as performance for each student. From viewing the report, you can determine which specific content area or type of items your students are struggling with.

Clicking on the student will show a similar report for the selected student.

### Student, Demo Item 20 on Grade 7 Mathematics Training Test

Details

Topic: Grade 7 Mathematics Training Test

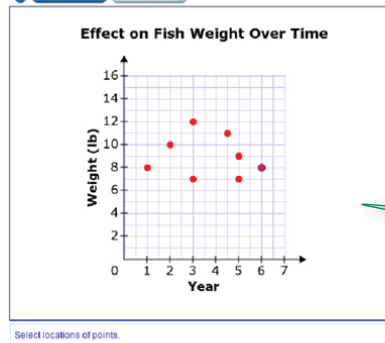

Content Alignment: Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients.

Item

20

A scientist is researching changes to a river's ecosystem. He believes something is destroying the food source of the fish in the river over time.

Use the Add Point tool to plot **eight** points to complete a scatter plot so that it supports the scientist's claim.

Rubric

Name	Description	Outcome
Assertion	The student plotted eight points on the graph, showing an overall decrease in weight over time.	false

## Student Item Response

When you click on the student's score under a selected item, the Student Item Response you can see student's actual response including the item details and item rubric. This report helps you analyze the student's understanding of individual item topics.

Knowing how a student performed on a specific item and seeing the student's work can help you better understand what your students know and don't know. By viewing the student's actual response, you can begin to pin point student's misunderstanding of key concepts.
