

Accessing AIR Ways Reporting for Teachers

AIR Ways provides information on student performance on Benchmark Modules. When users log on to the system they see the Dashboard page. The Dashboard provides a summary of all the assessments your students took. More detailed reports with item analysis and a view of actual student work can be accessed from the dashboard page.

Note: The type of performance data that appears in AIR Ways varies by test type. For Benchmark Modules, performance level data will appear.

AIR Ways Reporting Card

1. On the SAGE portal select your user role.
2. Click the **AIR Ways Reporting** card. The login page appears.
3. Enter your email address and password.
4. Click **Secure Login**. The Dashboard will appear.

Demo_Student_A	9999550022	Benchmark Module: Writing Grade 4 Opinion	09/26/2016
Demo_Student_B	9999550021	Benchmark Module: Writing Grade 4 Informative	09/26/2016

Teacher Dashboard

The Dashboard will display the overall summary of score data and testing information. The **My Assessments** table displays average score and/or performance distribution of all assessments for your students and the **My Students** table displays a list of most recent assessments that your students have taken.

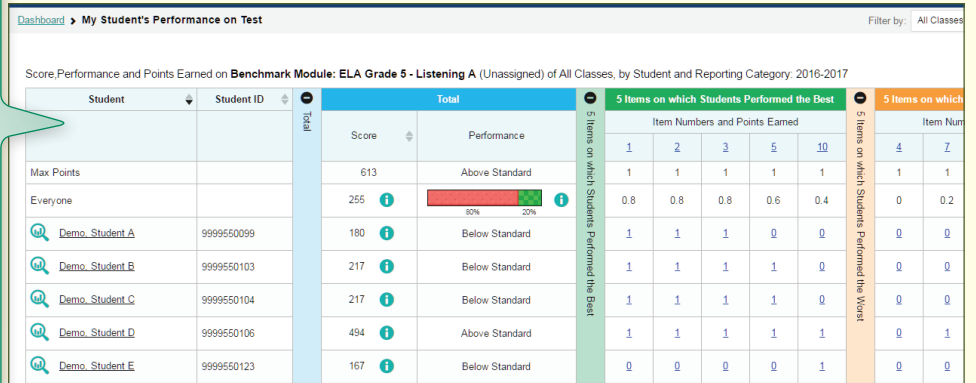

The data you see are dependent on your role; for example, a teacher only sees data for their students.

From this page, you can see how your students performed on a *specific assessment* or you can see how a *specific student* has performed across assessments.

Teacher Assessment Report

To view how your students performed on a specific assessment, you can click on the name of the assessment from the **My Assessments** table on the dashboard.

This report provides score, performance, and/or points earned for the selected assessment of all students. This report can be used to compare how individual students have performed compared to the rest of the students. It also displays the five assessment items with the highest or lowest average score for your students, which helps you analyze their strengths and weaknesses.

Student, Demo Item 20 on Grade 7 Mathematics Training Test

Details

Topic: Grade 7 Mathematics Training Test

Content Alignment: Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients.

Item

20

A scientist is researching changes to a river's ecosystem. He believes something is destroying the food source of the fish in the river over time.

Use the Add Point tool to plot **eight** points to complete a scatter plot so that it supports the scientist's claim.

Effect on Fish Weight Over Time

Weight (lb)

Year

Select locations of points.

Rubric

Name	Description	Outcome
Assertion	The student plotted eight points on the graph, showing an overall decrease in weight over time.	false

Student Item Response

When you click on the student's score under a selected item, you can see student's actual response including the item details and item rubric. This report can help you analyze the student's understanding of individual item topics.

Knowing how a student performed on a specific item and seeing the student's work helps you better understand what your students know and don't know. By viewing the student's actual response, you can begin to pin point student's misunderstanding of key concepts.

Student Portfolio Report

To view performance for an individual student across assessments, you can click on a student in the **My Students** table on the dashboard.

This report provides score and/or performance data for all assessments the student has completed. From this report, you can also access the student's item response on a selected assessment.

Student Assessment Report

When you click on the name of the assessment, you are directed to the report that displays the results for the selected student's assessment.

This report provides the student's score on each item, the class's average, and/or the student's performance level for the assessment. From viewing the report, you can determine which specific content area or type of items your students are struggling with.
